If you're a camper heading out for a trip — or just getting firewood for your wood stove — do the forests a favor. Don't move firewood long distances — it can potentially transport invasive species. Instead, buy it where you'll burn it, buy heat-treated firewood or gather on site where permitted.

BUY IT WHERE YOU BURNIT.

How to Help:

▶ Leave firewood at home — buy local firewood at or near your destination, or collect firewood on site when permitted.

Buy or collect only what you'll need, and use it all up by the end of your stay.

▶ If you have already moved firewood use it immediately. Do not take it home with you, and do not leave excess firewood on site.
