

FIREWOOD ALERT!

YOU have the power to protect your Texas forests and trees!

BUY IT WHERE YOU BURN IT.

Pests like the invasive emerald ash borer can hitchhike in your firewood. Help Texas prevent invasive pests from destroying trees.

- ▶ Don't bring firewood into Texas from out of state.
- ▶ Use firewood from your property on site – don't take it with you when you travel around Texas.
- ▶ Buy local, or gather on site when allowable.
