

Colorado's trees and forests need your help. You can prevent the accidental spread of tree-killing insects and diseases — like the emerald ash borer and mountain pine beetle — by simply buying or gathering local firewood near where you'll burn it.

BUY IT WHERE YOU BURN IT.

How to Help:

- ▶ Leave firewood at home — buy local firewood at or near your destination; collect firewood on site only when permitted.
- ▶ Buy or collect only what you'll need, and use it all up by the end of your stay.
- ▶ If you have already moved firewood use it immediately. Do not take it home with you, and do not leave excess firewood on site.
