

FIREWOOD ALERT!

YOU have the power to protect Georgia's forests and trees!

BUY IT WHERE YOU BURN IT.

Pests like the invasive emerald ash borer can hitchhike in your firewood. Help Georgia prevent invasive pests from destroying trees:

- ▶ Don't bring firewood into Georgia from out of state.
- ▶ Use firewood from your property on site — don't take it with you when you travel around Georgia.
- ▶ Buy local, or gather on site when allowable.
