

If you're a camper heading out for a trip — or just getting firewood for your wood stove — do the forests a favor. Don't move firewood long distances — it can potentially transport invasive species. Instead, buy it where you'll burn it, buy heat-treated firewood or gather on site where permitted.

BUY IT WHERE YOU BURN IT.

How to Help:

- ▶ Leave firewood at home — buy local firewood at or near your destination, or collect firewood on site when permitted.
- ▶ Buy or collect only what you'll need, and use it all up by the end of your stay.
- ▶ If you have already moved firewood use it immediately. Do not take it home with you, and do not leave excess firewood on site.
