

# MOVING FIREWOOD TRANSPORTS TREE-KILLING INSECTS AND DISEASES

Tree-killing pests hitchhike on firewood - spreading insects and diseases that destroy our trees and forests.

Protect your favorite places from this threat:

- Buy certified heat-treated firewood.
- Tell your friends not to move firewood.
- Ask a park ranger or campground host about where to get certified heat-treated firewood or go to **FirewoodScout.org**

**DON'T MOVE

Department of  
**Agriculture**

| Forestry

The Nature  
Conservancy

US Army Corps  
of Engineers.

**Forest insects and diseases kill thousands of trees every day.**

**Prevention is the key. Don't move firewood when you travel, camp, or visit another state.**

\* Actual size

**emerald ash borer**  
*Agrilus planipennis*

**Asian longhorned beetle**  
*Anoplophora glabripennis*

**gypsy moth caterpillar**  
*Lymantria dispar*

**walnut twig beetle**  
*Pityophthorus juglandis*
