

# FIREWOOD ALERT!

**YOU** have the power to protect Texas forests and trees!

# BUY IT WHERE YOU BURN IT.

Pests like the invasive emerald ash borer can hitchhike in your firewood. Help Texas prevent invasive pests from destroying trees:

- ▶ Don't bring firewood into Texas from out of state.
- ▶ Use firewood from your property on site — don't take it with you when you travel around Texas.
- ▶ Buy local, or gather on site when allowable.
