

FIREWOOD ALERT!

You have the power to protect forests and trees!

BUY IT WHERE YOU BURN IT.

Pests like the invasive emerald ash borer can hitchhike in your firewood. You can prevent the spread of these damaging insects and diseases by following these firewood tips:

- ▶ Don't bring firewood into California from out of state.
- ▶ Buy locally harvested firewood at or near your destination.
- ▶ Gather firewood on site only when permitted, and burn responsibly.
