

INVASIVE INSECTS AND DISEASES ARE A MAJOR THREAT TO TREES, FORESTS, AND YOUR NEIGHBORHOOD

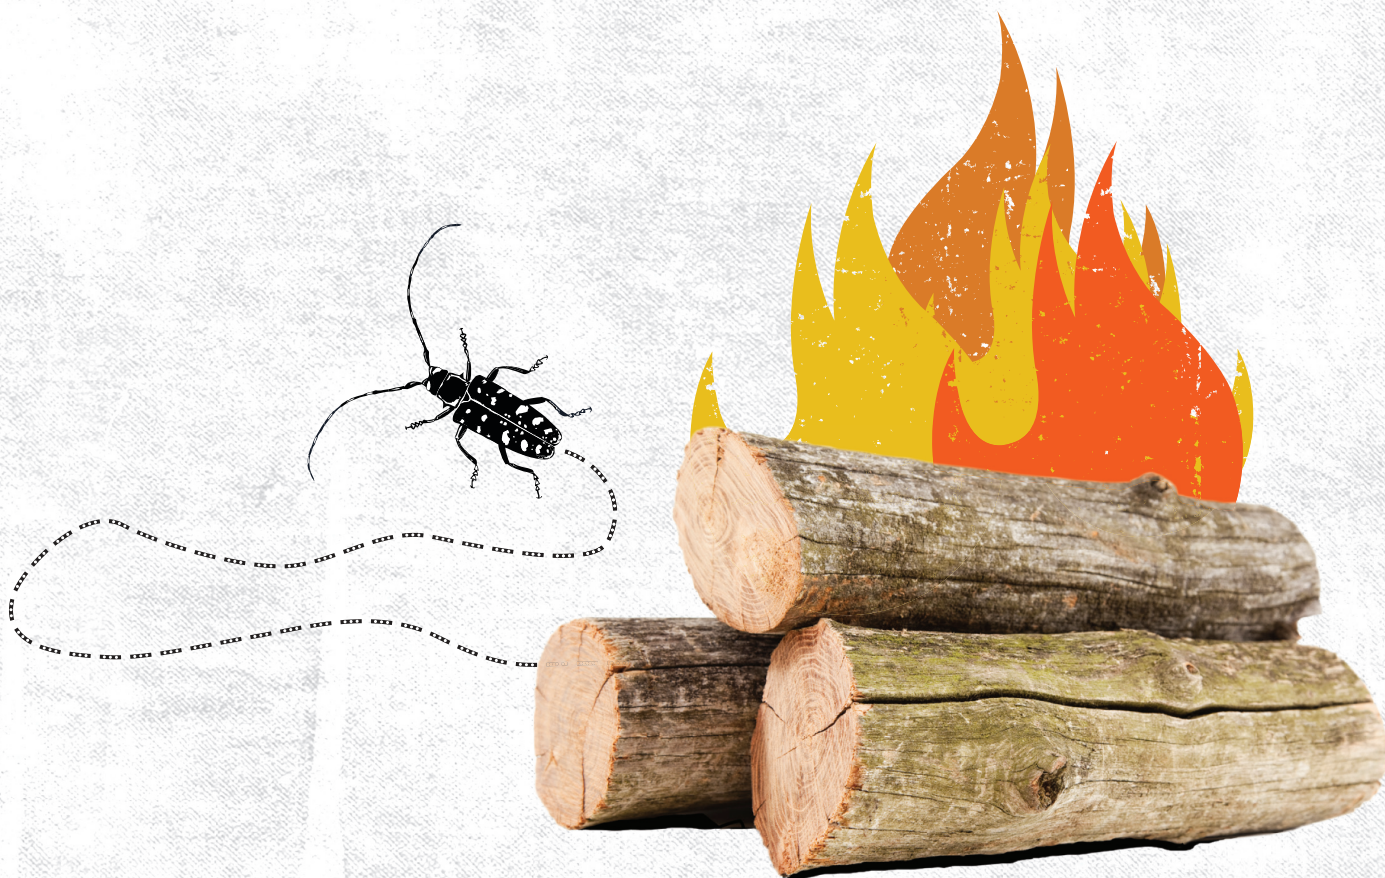

Tree-killing invasive species like the Asian longhorned beetle and emerald ash borer can't move far on their own, but they can jump hundreds of miles when people move firewood.

HOW YOU CAN HELP:

To protect our natural resources:

- Do not bring firewood with you when you travel
- Burn locally cut firewood
- Encourage family and friends not to move firewood
- Report unfamiliar insects or tree damage at (877) STOP-ALB

BUY IT WHERE YOU BURN IT.

**DON'T MOVE
