

# LET'S GO CAMPING

The first known s'mores recipe was published by the Girl Scouts in **1927**.

**87%** of campers say having a campfire is extremely important.

**37%** of Americans use firewood for outdoor recreation each year.

**50%** of people think firewood should be stacked with the bark facing up, and **50%** think it should have the bark facing down.

**85%** of campers took their first trip before they turned **16** years old.

Emerald ash borer is now found in parts of **25** states and **2** Canadian provinces. This insect is easily spread by moving infested firewood.

All **2,235** National Forest and **695** US Army Corps of Engineers reservable campgrounds advise visitors to use local or heat-treated firewood to **reduce the risk** of transporting forest pests.

The average person burns the equivalent of **6 1/2** marshmallows for each mile they walk.
